

**Notification of Department of Industrial Works:  
Existing Chemicals Inventory in Thailand No. 1 B.E. 2563 (2020)**

To announce the list of hazardous chemicals existing in Thailand regulated by Department of Industrial Works (DIW) under the legal framework of regulations on hazardous substances, DIW published a notification regarding preliminary existing chemicals inventory in Thailand B.E. 2559 (2016) dated on 30 June B.E. 2559 (2016). As it is appropriate to update the chemicals inventory, which has already been developed by DIW, that complies with hazardous substance regulation in Thailand, DIW hereby disseminates existing chemicals inventory from B.E. 2538 to 2560 (1995-2017). as follows;

Article 1 This notification cancels the previous DIW notification regarding preliminary existing chemicals inventory in Thailand B.E. 2559 (2016) dated on 30 June B.E. 2559 (2016)

Article 2 The first Thailand existing chemicals inventory, which can be accessed by the website <http://inventory.diw.go.th/hazardous61> , is designated as the list of chemicals existing in Thailand regulated specifically by DIW under the legal framework of regulations on hazardous substances

This notification was established for the benefit of hazardous substance business operators to examine this chemical inventory that complies with hazardous substance regulation in Thailand under the responsibility of DIW.

Established on 22 June B.E. 2563

Mr. Prakob Vivitjinda

Director General of Department of  
Industrial Works
